Portal® TI+ by Unitec

Intelligent, automated car wash transactions

The Portal's versatile feature set makes it an excellent option for any car wash business model. With a customer-friendly touchscreen interface and multiple dispensing options (coin, bill or both), the Portal enhances the customer experience, while operators will appreciate its remote access and operator-configurable promotions.

Ease of Use

Touchscreen technology and user-friendly menus are designed to guide customers through the transaction process quickly. The Portal's simple, no-hassle approach maximizes customer ease-of-use.

The Portal TI+ is a smart choice for unattended, self-serve systems at petroleum and C-Store sites, interfacing with point-of-sale registers and gas pumps to offer car wash redemption codes. Users can receive change in the form of bills, coins or both.

Marketing Options

Multiple advertising opportunities, loyalty programs and cross merchandising options can be embedded into the Portal TI+, boosting revenue at the car wash point of entry. The Portal TI+ has on-screen video capabilities and exceptional branding opportunities with custom overlays.

Efficiency

Remote access capabilities allow Portal TI+ owners to monitor site activity, generate comprehensive reports and manage their operations, while saving time and boosting revenue.

MADE IN USA

by Unitec

Security

Cash access is secured through a separately keyed door and an integrated alarm is provided. The Portal TI+ can also be equipped with an optional wide-angle surveillance camera.
