Protect Your Investment & Keep Your Line Running Smoothly with the New

Outdoor/Conveyor Entrance Enclosure

Safeguards Keypad Registers at the Tunnel Entrance and Presell Area

A damaged keypad terminal is not only costly to repair or replace, it also disrupts traffic flow, cutting into your carwash's productivity and causing longer waits for customers.

Protect Your Investment and Your Reputation for Customer Service by Installing the New Outdoor/Conveyor Entrance Enclosure from DRB Systems

- Designed for a keypad terminal or a keypad register at tunnel entrances and presell areas.
- Made of rugged 14 gauge 316 stainless steel.
- Resists moisture, chemical damage, dust, debris and vandalism.
- Tamper resistant 3-point pad lockable stainless latch.
- Dual 12" aluminum utility mounting plates.
- Includes 36" stainless pedestal.
- Easy to install – conduit run and pedestal mounting instructions included.
- Dimensions – 26" W, 22" H, and 20" D.
- Not intended for use with Touch Screen Terminal.

Ask your DRB Systems representative for details.

Outdoor/Conveyor Entrance Enclosure

Designed to comfortably hold keypad terminal, cash drawer, and receipt printer at tunnel entrances and presell areas.

Durable stainless lever is pad lockable. Lever operates a heavy-duty stainless 3-point latch deterring register theft and vandalism.

Enclosure hinges at the bottom, allowing the door to swing down out of the way. Rugged 14 gauge, 316 stainless construction provides years of use near moisture and chemicals.

Three foot tall, 11 gauge, 316 stainless pedestal provides secure mounting, and moisture resistant cable routing into the bottom of the enclosure.
