

SiteWatch®

Powerful Point-Of-Sale Solution for Managing Your Car Wash Business

Point-of-Sale Software 

SiteWatch is a Windows-based POS and register solution that can support up to 64 stations per car wash site. More than that, this feature-rich system can help you manage and grow your entire business.

Backed by industry-leading support, SiteWatch can be customized to meet the demands of any car wash business, from the single-site wash to the multi-profit center chain, from express to full-service.

- **Clear credit cards** in less than two seconds with Xpress Card Clearing®
- **Manage labor**
 - Timeclock
 - Control employee access
 - Track hours and costs
- **Make data-based decisions with robust reporting**
 - Monitor site performance with StatWatch® from app or web browser (included with support contract)
 - Receive alerts and bulletins on key sales and labor information
 - Access detailed, real-time reports 24/7 online with SiteWatch Web Reporting
- **Manage basic inventory.** Control inventory using a barcode reader with capacity for up to 64 million items.
- **Minimize downtime** with a dedicated server and uninterrupted power supply

Add-Ons

Business Management

- **Multi-Site Replication** quickly and securely transfers data site-to-site.
- **CarPics® Vehicle Manager** displays pictures of each queued car, allowing the loader to make quick corrections, personalize customer greetings, spot fraud and more.
- **Quickbooks® Interface** connects SiteWatch with your general ledger and house accounts.

Sales & Loyalty Programs

- **Automatic Recharge Module® (ARM®)** automatically charges members' credit cards monthly to renew their plans.
- **FastPass®** uses RFID technology to identify and automatically allow plan and fleet account members through to the tunnel.
- **SmartCodes®** generates barcodes and QR codes for digital coupons and prepaid washes. Codes can be sent to customers via email, text messaging, social media, etc., and redeemed at any SiteWatch terminal.
- **Wash Code at Pump (WashCAP)** allows you to sell washes at your gas pumps or other service stations and track, redeem and manage those washes within SiteWatch.
- **Website Connect™** allows customers to purchase washes, prepaid cards and plan memberships 24/7 through your website.
- **Loyalty Promotion Module** keeps customers coming back for more by tracking repeat visitors and rewarding them with attractive promotions.
- **Prepays and washbooks** can be activated, reloaded and tracked.

Hardware Options

Xpress Pay Terminal® (XPT®) - Convenient self-pay terminal that increases productivity, saves time and allows customers to control their own transactions

Touchscreen Terminal - An all-in-one unit that includes a friendly and intuitive touchscreen for cashiers

Outdoor Touch Terminal - A more rugged touchscreen used at or near the tunnel entrance or at staff positions exposed to the elements

PC Terminal - Alternative to the Touchscreen Terminal for places where a component-based unit makes more sense or is preferred

Manager Workstation - The perfect terminal for a back office, allowing you to manage your wash effectively with SiteWatch

Tablet Touchscreen Terminal™ - An all-weather, compact touchscreen sales terminal that allows you to complete transactions at customers' vehicles
