

SmartCodes®

Increase Sales with Easy-to-Redeem Promotions

Software Add-on 

Every year, more than 100 million people redeem online coupons, creating sales retailers otherwise wouldn't have received. Cash in on this opportunity for your car wash with SmartCodes.

This SiteWatch® add-on makes it easy to create enticing offers by allowing you to configure barcodes and QR codes for digital coupons and prepaids. Those codes can then be included in emails, text messages, fliers, social media, etc., and redeemed at your SiteWatch terminals.

- Ensure code security with password-protected SmartCode Builder
- Clone a code from one offer to be used in a future offer
