

# SiteWatch® Tablet Touchscreen Terminal™

Small Enough for Anyone, Tough Enough for any Car Wash

Point-of-Sale Hardware

Our lightweight but rugged, user-friendly tablet is a point-of-sale terminal and a powerful marketing tool rolled into one.

## As a POS Terminal

- Increases productivity by allowing you to enter transactions directly into the SiteWatch system without leaving the customer's vehicle.
- Clears credit cards in less than two seconds using SiteWatch Xpress Card Clearing®.
- Accepts barcoded coupons.
- Reads barcoded windshield tags for prepaid and monthly pass sales.

## As a Sales and Marketing Tool

- **Create a Positive Impression:** Show customers your menu digitally at the point of sale on the full-color screen of the Tablet Touchscreen Terminal (TTT).
- **Promote Specials:** The digital messaging on the TTT screen can be changed quickly and easily, making it simple for you to promote short-term specials. For example, you can use the screen to market discounts on upgrades to boost dollar volume on slow, questionable weather days.
- **Seasonal Themes:** It's also simple to add menus with seasonal themes for holidays like St. Patrick's Day or Valentine's Day to your TTT menu display.
- **Build your Digital Marketing Lists:** Get on the road to a successful email and text message marketing campaign by using the TTT to add customers to your opt-in lists. The on-screen keypad makes it simple to enter customer email addresses and phone numbers.

# Features

## Tough

- Water resistant with IP65 certified, sealed all-weather fanless design and solid state drive
- Shock resistant (5' drop)
- Raised bezel for LCD impact protection

## Compact

- Weighs only 1.4 lbs. (with scanner)
- Measures under 8" x 5.2" – not much larger than some smartphones

## User-Friendly

- All-in-one unit that includes a friendly and intuitive touchscreen for your cashier. The colors, text and items sold on the "buttons" are customizable by you.
- Information about the sale, customer and more is at your staff's fingertips, allowing them to increase sales and provide better service at your customers' vehicles.
- Bright 7" display screen with LED backlighting
- Anti-reflective screen treatment for easy viewing

## Efficient

- Enters transactions directly into the SiteWatch POS system
- Credit cards clear in less than two seconds using the integrated reader to keep your line moving quickly.
- Using the integrated barcode scanner lets you quickly scan coupons, tickets, gift cards, club cards, unlimited pass stickers and more.
- Standard 8-hour battery life with 16-hour option
