

Xpress Pay Terminal®

Reduce Labor Costs, Increase Customer Convenience with the Most User-Friendly Pay Station in the Industry

Our self-pay terminal is a win-win for your business and your customers. It allows you to run more cars (up to 80 per hour per XPT®) and reduce labor costs while enabling on-the-go customers to quickly complete their own transactions. The XPT works for exterior, flex and full-service tunnels – anywhere you want the customer to self-pay. Up to eight XPTs are supported per site.

Features

Increase sales and loyalty

- Sell monthly unlimited plans
- Sell prepaids such as gift cards and “buy one get one” deals
- Display special menus, rewards, expiration dates and messages for loyalty club members
- Sell washes through partner gas stations with WashCAP module

Accept numerous forms of payment

- Cash and coins
- Credit cards – Quick and secure processing. Optional local approval mode allows transactions during internet failure. EMV available.
- Gift cards and other prepaids
- Barcodes and SmartCodes®

Protect your investment and information

- Weather-resistant
