

Point-of-Sale Integrated Vacuum Operation Terminal (PIVOT)

Improve Customer Vacuum Experience and Create New Revenue

Integrating SiteWatch® with Vacutech self-serve vacuums, PIVOT gives you complete control over vacuum usage and the customer experience.

Features

With Pivot, you no longer have to choose between free or paid vacuums. You can provide free vacuuming time to your wash customers while offering a paid service to those who want to vacuum without purchasing an exterior wash.

Customers can also purchase additional time when the free time has run out. Vacuum time can be included in unlimited wash plans and be customized based on the level of plan purchased.

Boost customer satisfaction and create an additional revenue stream for your wash with PIVOT.

- Convenient, intuitive user interface
- Compact scanner, allowing wash customers to scan receipts to redeem free vacuum time
- Vacuum countdown timer with audible signal to indicate when time has run out
- 100% stainless steel terminal enclosure with an ultra-secure terminal lock system
- Auto brightening touch screen display prevents washout

- Durable electronic components rated for harshest environments
- Customizable theme, color and logo
- Convenient troubleshooting capabilities
